WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--22 February 1985

CIPC Organizational Activities

- All agency comments have been received and incorporated into the Cruise Missile Status Report. Paul has provided ES/CIPC and VC/CIPC a new draft, however, it will require considerable rework before it is ready for your and the CIPC's review. We will develop a new draft by next Wednesday and have the report ready for a March CIPC meeting.
- 25X1 ● Charlie Allen has appointed [] chairman of an IICT subcommittee on collection requirements involving counterterrorism (Attachment A).
- The Narcotics Study contained a recommendation that the respective collection committees identify a point of contact with OVP/NNBIS. Although this has been accomplished, the HUMINT Committee's formal appointment by memorandum is noteworthy and appropriate. There is merit for the other collection committees to follow suit (Attachment B).
- Attached is a memorandum from Kenneth Adelman to the Secretary of State on the Proliferation of Chemical Weapons, which provides some recommendations on how the US might tackle this problem. Some of ACDA's recommendations parallel those contained in our CBW Study--to bad the DDCI did not see Adelman's memorandum prior to receiving our study (Attachment C).
- 25X1 ● The CIPC CBW Intelligence Subcommittee will convene its final formal meeting on 4 March. This meeting will focus primarily on [] and is scheduled to be an all-day affair. We have received preliminary indication that the DDO representative will not attend, however, because of the DCI's decision not to charter our subcommittee. Subsequent to the March meeting, [] will develop a strawman report and coordinate it with the subcommittee members prior to forwarding it to the CIPC.

Personnel

- NSA will be completing their selection process for a CIPC staffer early next week. They already have a prime candidate, however, they are awaiting to see if any other appropriate candidates surface.

25X1 CBW Intelligence Subcommittee: []

- Another meeting on the ACIS draft CBW report to Congress (due 15 March) was held on 14 February. Attendees included many members of the CIPC CBW Intelligence Subcommittee. The revised draft is much more in line with overall Community views than the original version.
 - There are no references to the CIPC or CIPC CBW Intelligence Subcommittee in the draft ACIS report.
- The 13th meeting of the CIPC subcommittee was held on 19 February, where [] training were the major subjects of conversations.

25X1 Terrorism Activities: []

- A meeting was convened on 19 February of various personnel involved in coordination of R&D for counterterrorism. Included were Charlie Allen; [] DO/ORD; Ambassador Borg, State MC/T; and Peter Bahnsen, DoD C³I. The purpose of the meeting was to sort out the R&D efforts undertaken by the IR&DC, the IICT, and the IG/T. Some progress was made in establishing a better division of labor, but more work is necessary. Further meetings on this effort have been scheduled.
